

Section 3: Technology's Effects on Our Lives

Changing topics, we'd like to ask you some questions about technology in your life.

Some people are adopting "no technology" policies at certain events, and enforce the policy by doing things like asking people to turn off their cellphones, tablets, iPads, etc. or leave electronic devices at home, in their car, or in a basket by the door. Would you agree or disagree with a policy of "Turn off your technology or leave your devices at home / in the car / in the basket" in the following situations:
